

Lockert, Hamlin and Hamlin PLLC Attorneys

Personal Injury

There is a high probability that your personal injury case is an area of law that our attorneys frequently practice in. Our office will handle every aspect of your case, from preparation and investigation of your claim, to insurance company negotiations, to the completion and filing of a petition and potential trial of your claim. Our office uses accident reconstructionist when needed and associate medical and pharmaceutical professionals, when required, to evaluate your case. We will collect information and medical records via HIPPA consent, obtain expert testimony where needed, and represent you from the beginning of your claim until resolution, either by trial or settlement or appeal if necessary. Our firm has secured millions of dollars for our clients over the years that we have been in practice, and under our contingency agreement, you do not pay for any legal fees unless you win in court or we reach a suitable settlement for you. Our goal is to make it easier to deal with the stress and strain of your personal injury by not accessing any legal fees unless you win your case. You pay all fees after the case is over. Our office will also make arrangements to come to you during your time of need. All you have to do is contact our office for a free consultation.
